

I. General Remarks Concerning This Response

Claims 1-7 and 9-22 are currently pending. In this response, no claims are amended; no claims are added; and no claims are canceled. Reconsideration of the claims is requested.

II. Rejections over JavaServer Pages™ Specification Vers. 1.1

The Office action has rejected all of the claims in some manner in view of Pelegri-Llopart et al., *JavaServer Pages™ Specification Vers. 1.1*, Sun Microsystems, Inc., 08/18/1999 (JSP 1.1). The rejections are traversed.

Applicant respectfully asserts that Applicant completed and reduced to practice the claimed invention before the publication of JSP 1.1 (August 18, 1999). A declaration, pursuant to 37 C.F.R. § 1.131, has been duly executed by Shane Claussen, an inventor of the present invention; the declaration is included with this response. The inventor declares that Applicant's claimed invention was completed and reduced to practice prior to July 1, 1999. Exhibit "A" to the inventor's declaration is an IBM Invention Disclosure Form that disclosed Applicant's claimed invention. This Disclosure was submitted to the IBM Intellectual Property Law Department in Austin, Texas prior to July 1, 1999. The inventor's declaration under 37 C.F.R. § 1.131, therefore, removes JSP 1.1 from consideration as prior art. Because JSP 1.1 is not prior art with respect to Applicant's claimed invention, the rejection fails to make a *prima facie* case of obviousness in rejecting the pending claims. Applicant respectfully asserts that the claims are allowable.

III. Conclusion

It is respectfully urged that the present application is patentable, and Applicant kindly requests a Notice of
